

Liam Thierens

Laser 3D Scanning Manager

Liam has over ten (10) years of experience as a surveyor and scanning specialist with a specific focus on structures and as-constructed deliverables.

Recently Liam has advanced into the role of Laser Scanning Manager as our development in this service continues to be improved and strengthened. He now manages the scanning division of Bennett + Bennett and leads the survey team.

Liam's background in land, structural and civil infrastructure projects throughout South East Queensland has allowed him to develop a strong spatial survey understanding. This knowledge coupled with robust database management skills facilitates expedited spatial data transfer between survey, engineering consultants and spatial specialists.
