

Adam Sokac

Drafting Manager

Adam has over fifteen (15) years' experience in the surveying, engineering and construction industry throughout Australia. He has a broad range of expertise in photogrammetry, engineering and cadastral drafting, construction, GPS and hydrographic surveying. His skills include knowledge of the latest photogrammetry technologies along with an in depth understanding of AutoCAD, 12D and PhotoModeler software.

Adam ensures he complies with quality assurance policies and assists with recommendations to increase efficiencies and project quality with a keen eye for detail. He understands the importance of project delivery deadlines and has the desire to exceed client expectations.

QUALIFICATIONS

Certificate III in
Engineering
(CAD/Drafting)

Certificate II in Maritime
Operations (Coxswain)

ACCREDITATIONS

Member of SSSI

EXPERIENCE

- Aerial & terrestrial photogrammetry
- 3D modelling
- Cadastral & engineering drafting
- High resolution orthophoto imagery
- Construction set out & survey control
- DTM & point cloud data management
- Hydrographic survey
- GPS surveys
