

Patrick Shaw

Associate / Project Manager

Patrick has over eighteen (18) years' experience in survey and design, from large rural engineering and cadastral projects to significant infrastructure and mining projects in Australia and overseas.

He has had field and management roles as a surveyor and as an engineer. This knowledge combined with strong management and communication skills allows him to guide clients to achieve the best possible results within time and budget constraints.

His on the ground experience combined with his masters' degree in Business and Project Management allows him to constantly meet clients' demands.
